

My name is Mike Szczygiel (Segal) and I have recently joined THOMCO as Senior Loss Control Representative for their Medical Transportation Division. I have been given the task of spearheading the implementation of multiple safety initiatives. For example, we have in the works a weekly safety

newsletter called “Vitals for Medical Transport Professionals” which will be distributed at no cost to you via “blast” e-mail each Friday. We welcome your input regarding topic selection and other issues pertinent to your organization’s safety needs. Feel free to share “Vitals” with your personnel in whatever medium you deem appropriate. THOMCO is also implementing a web-based driver safety training program named “Arrive Alive and Do No Harm” which will be licensed for use by your service. This interactive, innovative on-line training is designed to address the common risks associated with both the emergency and non-emergency transportation of clients.

THOMCO is dedicated to providing value added services to our client partners. So that we can share information with you most efficiently, please provide me with the name(s), title(s), addressees, telephone number(s) and e-mail addresses of the person(s) in your organization who handle(s) safety issues. My particulars are: Michael E. Szczygiel (Segal), Senior Loss Control Representative, THOMCO, P.O. Box 440549, Kennesaw, GA 30160, (800)255-4301, ext 4103, meszczygiel@thomcoins.com. I’ll look forward to hearing from you.
